

PAOLA LENTI AT THE BIENNALE ARCHITETTURA 2020

Paola Lenti as a Company will participate as sponsor in the 17th International Architecture Exhibition — *How will we live together?* — organized by La Biennale di Venezia and which will take place from May 23rd to November 29th 2020.

The theme of this edition refers to an inclusive architecture that overcomes conflicts and allows human beings to live together overcoming their individualities. The question of the curator Hashim Sarkis itself already implies the answer that architecture should give, which we can identify in a future, which is respectful of the differences and aware of the necessity of a plural cohabitation of the planet. Architecture, thus, has the task to give a visible and tangible form to a new idea of living, of being together, while taking into account the great transformations that the world is going through.

The Company Paola Lenti, always sensitive to these issues, strongly supports the Biennale Architettura 2020 by bringing its contribution of ideas and projects to the heart of the international debate.

Paola Lenti considers the exchange of knowhow and the encounter of different cultures as a positive moment of growth and merges them into a single creative process. The Company has erased the boundaries between indoor and outdoor, has carefully taken up the ideas of designers from all over the world and transformed them into objects that dialogue with each other in form and style, and offers design solutions, which are always respectful of the human kind and the environment. All this highlights the spontaneity of Paola Lenti in nullifying the discordances and replacing them with a flexible approach, open to the dialogue and capable of blending the many interpretations of contemporary living.

PAOLA LENTI

Founded in Meda in 1994, Paola Lenti has followed a coherent and dynamic entrepreneurial path that has made it today an indisputable reference in the international design world.

The Company has distinguished itself for the ongoing research and experimentation in the field of fabrics and materials, an activity that has led the Company to create furniture pieces capable to anticipate and promote worldwide the culture of living.

A coherent thinking and a meticulous acting have established Paola Lenti as the modern interpreter of outdoor and indoor environments, thanks to its inimitable solutions offered in numberless colour hues and styles and to the innovative use of materials, designed to offer a complete and composite interpretation of spaces.
