

General safety Anti COVID-19 measures for the Biennale Architettura 2021

The Biennale di Venezia is following the evolution of the ongoing Coronavirus health emergency with the greatest attention and, in accordance with the competent authorities, is preparing an anti-COVID-19 safety protocol for the organization of the 17th International Architecture Exhibition (22 May – 21 November 2021).

Here below a list of the main Anti COVID-19 measures to be applied for the whole duration of the 17th Exhibition:

Temperature checking

The main accesses of Arsenale and Giardini Exhibition area, will be equipped with thermo scanners measuring temperature of the visitors before entering the premises. According to the Anti COVID-19 protocols, no one having 37.5°C or more as temperature must be allowed to enter.

Hands Sanitation

Visitors will have to use hydroalcoholic solutions for washing hands, before entering the Exhibition venue.

Compulsory Masks

Masks will have to be used during the visit and in all indoor and outdoor spaces.

Social distancing inside the venues

A protocol implying social distancing will be in place for all activities: walk-in installations, meetings and seminars, bookshop, bar and restaurants etc. This will reduce the number of visitors allowed inside the exhibition venues in order to guarantee the safe distance needed. Inside the venues and during the visit people have to keep the social distancing defined in at least 1 meter.

Entrance and exit

All the venues hosting the International Exhibition, the Collateral Events and all the National Pavilions will guarantee a separate entrance and exit system. There will be a one-way exhibition route to minimize the possible clustering and gathering of visitors. In particular the Arsenale entrance will be at Calle della Tana and the exit at Giardino delle Vergini, by means of Ponte dei Pensieri.

Tracing access and ticketing reservation

Ticketing to visit the Exhibition will be exclusively on-line, in order to avoid queues.

All visitors will be traced inside the venue. The visit to the exhibition requests the reservation of the ticket and the access to the venue will be guarantee to a limited number of visitors.

The reservation procedure and the number of visitors will be define by La Biennale referring to the characteristics of the exhibition venue, the dimension of the internal routes, presence of accessible installation etc.
