

**BODIES IN MOTION**  
**IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY**

Students reflecting on "*interesting times*" will **express their distress or complaint with nothing else except their bodies**, still or in motion, and the sound of their voices (not words!). The physical, visual and sensual expression of a group of human bodies, will be the task of the game. The interaction of all the bodies, grouped in two or more groups of people will result in sort of dance, an ad hoc performance or flash mob type of interaction.
