## **The Reflection: Quattro Gatti Gin Introduces the Official Cocktail of Biennale Arte 2026**

**Venice, Italy — May 6, 2026:** Quattro Gatti Gin, the Official Gin of the 61st International Art Exhibition – La Biennale di Venezia, is being served as the exclusive gin across cafés and restaurants within the Giardini della Biennale and Arsenale, as well as during official pre-opening events throughout the exhibition.

To mark this appointment, Quattro Gatti introduces **The Reflection**, the official cocktail of Biennale Arte 2026 and the signature expression of its partnership with St. Regis Venice. Designed as a sensory extension of the exhibition, the cocktail draws inspiration from Venice's shifting light, movement, and atmosphere — unfolding gradually rather than all at once.

Developed by Quattro Gatti Brand Ambassador Mattia Cilia in close collaboration with The St. Regis Venice bar team, The Reflection opens with bright citrus and hibiscus before settling into a softer, subtly saline finish grounded in the gin's Olive Grove expression. This profile mirrors the rhythm and nuance of Venice itself.

'The Reflection' is introduced through the global "Road to Biennale Arte 2026" series — a progression of moments leading into opening week that brings the cocktail to life across key cultural destinations. The series began at The St. Regis Rome and continues with a New York presentation at the King Cole Bar at The St. Regis New York, where it is featured throughout May alongside a dedicated experience. The series culminates on May 6, 2026 at The St. Regis Venice Arts Bar, after which 'The Reflection' will remain on the menu through the close of the 61st Exhibition, as a lasting tribute to the partnership and the season.

Quattro Gatti Gin was created by the Mordant family — Simon, Catriona, Angus, and Brielle — whose longstanding contributions to the international arts community have shaped the brand's vision from inception. The family's connection to La Biennale di Venezia spans more than two decades. Simon Mordant served as Commissioner for the Australian Pavilion in 2013 and 2015 and is currently Global Ambassador supporting Australia's participation in Biennale Arte 2026. In 2015, the Mordant family led the rebuilding of the Australian Pavilion, the first 21st-century permanent building constructed in Venice.

"'The Reflection' is our interpretation of Biennale Arte 2026 and the magic of Venice in a glass — layered, evolving, and meant to be experienced over time. We're thrilled for it to become part of the fabric of the exhibition, offering guests a genuine connection to the moment through Quattro Gatti," said Simon Mordant, Founder of Quattro Gatti Gin.

Throughout Biennale Arte 2026, guests can experience The Reflection at The St. Regis Venice Arts Bar, while Quattro Gatti Gin is poured exclusively across all official Biennale Arte 2026 exhibition venues — including the Giardini and Arsenale.

### **About Quattro Gatti Gin**

Born in Umbria, Quattro Gatti is a tribute to family, tradition, and the land that has inspired generations. Crafted with botanicals thoughtfully selected from across Italy, including native juniper, our gin embodies the purity and depth of flavor that define this rich region. More than just a spirit, Quattro Gatti is an invitation to embrace the Italian way of life, where time slows, conversations flow, and simple pleasures take center stage. Inspired by "il dolce far niente" - the sweetness of doing nothing - our gin is made for unhurried afternoons, golden-hour aperitivos, and intimate gatherings. With every sip, you're transported to the soul of Umbria, where flavors deepen, life slows, and every moment is meant to be savored.
