

Visiting Venice and La Biennale DMT 2023 thanks to the services of Vela and Venezia Unica

A trusted and unfaltering reference for citizens and visitors to live the experience of Venice and its cultural events

Venice, April 3, 2023 – Thanks to the valuable collaboration between **Vela spa**, a commercial company responsible for mobility services and marketing of the City of Venice, and **La Biennale di Venezia, visiting the city of Venice during La Biennale DMT Danza Musica Teatro 2023** is easy and at hand for everybody.

A multi-year collaboration now renovated for the **La Biennale DMT 2023 (51st. International Theatre Festival, June 15th – July 1st; 17th. International Festival of Contemporary Dance, July 13th – 29th; 67th. International Festival of Contemporary Music, October 16th – 29th)**, and that envisages a mutual exchange of visibility allowing La Biennale to promote its ventures all over the city, and Vela to support La Biennale – one of the most prestigious, international, cultural events, while promoting its “**Venezia Unica**” brand at the same time. Vela increasingly confirms its status as a supplier and reference point for the City's tourist and cultural operators and institutions.

Vela – a company belonging to **Gruppo AVM (Venetian Urban Mobility Company)** – also manages the “**Venezia Unica**” marketing platform for citizen and tourist services: a single city pass that provides a joint offer of **public transport** services, transfers, **parking, museums, churches, theatres, guides, Wi-Fi** and **public rest-rooms**. To begin with, the “Venezia Unica” system is available on www.veneziaunica.it, – the City of Venice's official portal for tourist information and e-commerce – and at the “Venezia Unica” ticket offices and tourist information offices (IAT), located by the access points to the historic centre, on the islands and on the mainland.

Also part of the Gruppo AVM is **Actv spa**, the local public transport company that guarantees connections throughout the whole day to the venues of **La Biennale DMT**, especially to the **Arsenale**.

AVM/Actv local public transport tickets can be bought and validated directly on smartphone devices using the AVM Venezia Official App where public transport timetables can also be consulted. The AVM Venezia Official App is available both in Italian and English for IOS (apple App Store) and Android OS (Google Play).

Gruppo AVM is one of the most diversified companies in the Italian public urban mobility sector, with over 3,000 employees and services that range from the **bus network** (over 100 routes running across 45 municipalities in 4 different provinces), to **waterborne services** (25 routes), **trams** (2 routes) and **people mover** (1 route) networks, **the blue parking bay system, parking garages**, and services linked to **cycling**, the **docks** and so much more.
